Re: Five-Year Permit Renewal - Completeness Determination, Sunnyside Cogeneration Associates, Sunnyside Refuse and Slurry, C/007/035-RN02, Outgoing File

Dear Mr. Scott:

The Division has determined that the permit renewal application for the Sunnyside Refuse and Slurry is administratively complete. Publication of the public notice for permit renewal may proceed as required by R645-300-121. The publication should now proceed for four consecutive weeks. At the end of the 30-day comment period, findings for the renewal will be made and the permit renewed unless a factual basis for denial of the renewal is presented to and upheld by the Division.

The bond estimate for the Sunnyside Refuse and Slurry has been updated by using 2002 unit costs, equipment costs and labor costs as well as escalating the bond for 2.5 years (i.e. until the midterm review) to \$2,458,000. Wayne Western would be happy to discuss this increase in the cost estimate. His phone number is 801-538-5263. Please post the increased amount by January 24, 2003.

If you have any questions, please call me at 801-538-5268.

Sincerely,

Pamela Grubaugh-Littig  
Permit Supervisor
